# 2017 SECOND INTERNATIONAL CONFERENCE ON CANCER PRECISION MEDICINE

第二届中美肿瘤精准医学高峰论坛

November 1<sup>st</sup>-3<sup>rd</sup>, 2017  
Tianjin, China

## WELCOME MESSAGE

Dear Friends and Colleagues,

On behalf of the Organizing Committee, we are pleased to invite you to participate in the Second International Conference on Cancer Precision Medicine to be held November 1<sup>st</sup>-3<sup>rd</sup>, 2017 in Tianjin, China, and to discuss the exciting developments and the opportunities as well as challenges in the development of personalized medicine in cancer care in the world but with a particular focus on China.

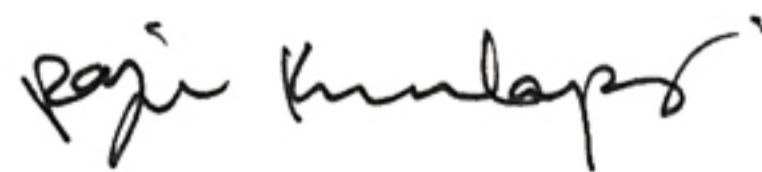

With the rapid progress of knowledge in life science and technology, Precision Medicine has become the forefront of cancer research. This new type of medical philosophy and model for taking care of cancer patients is developing very rapidly and promises to change the way cancer care is provided and more importantly how it can change the outcomes for patients diagnosed with cancer. The goal of the conference is to assemble different stakeholders of Cancer Precision Medicine and engage in a conversation about the status of cancer care and to promote Precision Medicine in China and in the world. The Organizing Committee is honored to attract world-class experts dedicated to improving cancer precision medicine. We will have physicians, scientists, business people, investor groups and regulators to have discussion on the medical, regulatory and business aspects of cancer precision medicine at this conference.

Tianjin is one of the four municipalities in China and a major international port, and features a splendid history and culture, unique folk styles and beautiful natural landscapes. This meeting coincides with the opening of a modern cancer hospital called International Personalized Cancer Center (IPCC) / Tianjin Taishan Cancer Hospital. We hope that all the participants at this conference could obtain significant new insights into modern cancer care by sharing and exchanging ideas with colleagues worldwide and visit the new cancer hospital.

We are looking forward to seeing you in Tianjin in 2017!
